

# ENFORCER<sup>®</sup>

## New Passive Proximity Immobilizer

**MODEL: SLI<sup>®</sup> 761PP-H2B**

*Now Enhanced and Upgraded with New Slim-Line Clear View Keys*

Most consumers already have enough on their minds. The **ENFORCER** Passive Proximity Immobilizer eliminates the hassle of remembering how & when to operate a vehicle security system. Simply placing the special fob on the keychain allows this system to completely protect the vehicle without the inconvenience. All black wiring makes this system virtually impossible for thieves to bypass.

New Passive Proximity key fob combines form with function. **Attractive transparent blue casing allows you to see the hi-tech RF ID transponder.**

### Customers Will Love It!

- Simple – no worries about arming, disarming, nuisance, changing batteries, or range.
- The vehicle is always protected!
- Multiple car operation. One key can control all vehicles.

### Installers Will Love It

- Two on-board relays make your choice of disabling the starter, ignition, or fuel pump easy.
- The flexible sensing coil can be mounted in many positions to make the job simple.
- Installer test mode helps determine best position for the sensing coil.
- Override plugs available for pre-loading at dealers.
- Plug-in status LED included.
- No valet switch needed.
