

Video Transmission Made Simple

SECO-LARM Brings Protection and Simplicity to CCTV

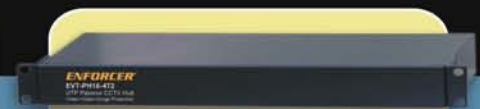

SECO-LARM's EVT-PB1-V1TSQ Passive Video Balun is the fast, easy, and low-cost way to connect a CCTV camera to a monitor, multiplexer, or video recorder. The video balun allows the video signal of a single CCTV camera to be transmitted long distances over low-cost CAT 5 unshielded twisted pair (UTP) cable. To make it more user and installer friendly, the EVT-PB1-V1TSQ is compact (2 1/4" x 19/32" x 19/32"), incorporates screw terminals, and includes built-in surge protection.
