Access Control Digital Keypad SK-1131-SQ

The ENFORCER Access Control Keypad is more than just another pretty face. Behind the attractive stainless steel faceplate and the soft glow of its blue backlit keypad are programmable features that offer the very best in protection. The keypad has 3 independently wired LEDs, 3 Outputs, 120 user codes and many in-demand programming options. The keypad boasts 4 alarm outputs, a "mantrap" feature, a door auto-relock feature, plus much more, making the ENFORCER SK-1131-SQ the best and brightest.
