SECO-LARM Introduces ENFORCER 3X Series: 3-in-1 CCTV cameras

IRVINE, CALIF., February 4, 2010 - SECO-LARM has introduced the ENFORCER 3X Series: 3-in-1 CCTV cameras that combine 14 high-intensity IR LEDs, DNR, and WDR. By combining these three features, the ENFORCER 3X Series is able to produce clear images in almost any lighting condition.

IR LEDs help capture images when there is no light. DNR cleans up camera noise created by the Digital Slow Shutter to produce clear images in almost total darkness. WDR captures a clear picture where strong backlighting occurs.

In addition to IR LEDs, DNR, and WDR, the ENFORCER 3X Series features a 1/3" Sony Super HAD CCD, 550 TV lines, and 12VDC or 24VAC dual voltage. The ENFORCER 3X Series also comes equipped with a convenient On-Screen Display menu for programming special features such as motion detection for highlighting moving objects on screen and High Spotlight Back Light Compensation (HSBLC) to black out bright areas on screen.

The ENFORCER 3X Series has two models available: the EV-1626-NKGQ has a 2.8~12mm lens and the EV-1626-NWGQ has a 6~50mm lens.
