

The Elite Series Long-Range Bullet Camera

EV-133C-DWBWQ 5~50 mm Varifocal Lens, 550 TV Lines, Up to 200 ft. Range

NEW

- 15 Hi-Intensity IR LEDs
- Up to 200 ft. (61 m) Range
- 5~50 mm Varifocal Lens
- Day/Night Weatherproof

15 Hi-Intensity Infrared LEDs

These LEDs illuminate the protected area with bright infrared light to a range of up to 200 ft. (61 meters), allowing a single EV-133C-DWBWQ camera to replace multiple cameras at many customer sites.

Split-Glass Design To Stop IR Reflection

Two separate panes of glass—one covering the lens, the other covering the LEDs—are separated by the lens hood to stop the LEDs' infrared light from reflecting off the glass and back into the lens.

DC Auto Iris Varifocal Lens

The focal length of the lens can be adjusted from 5mm to 50mm via a convenient adjustment screw under the camera. This allows the camera to be set to cover a wide area or focus in on a specific target.

Concealed Cabling Through The Camera Mount

The power and video cables are concealed in the mount between the camera and the mounting base in order to protect the cables and provide for a more attractive installation.

- 1/3" Sony Super HAD CCD.
- 550 TV lines for high resolution.
- 15 Hi-Intensity IR LEDs:
Up to 200 ft. (61 m) range.
- Day/Night Operation:
0 lux with LEDs on, 0.1 lux with LEDs off.
- DC auto iris varifocal 5~50 mm lens.
- External adjustments for zoom and focus.
- Split-glass design to eliminate IR reflection.
- CDS sensor.
- Wiring concealed in the mounting bracket to prevent tampering.
- Weatherproof IP67 for outdoor use.
- Dual voltage: 12VDC or 24VAC.
