New 12-LED IR Day/Night Weatherproof Bullet Cameras with Specialized Lenses - Now Available

SECO-LARM is now shipping several (color) IR Day/Night Weatherproof Bullet Cameras with new lenses.

SECO-LARM offers several new long range IR day/night cameras with specialized lenses, providing various options for range and viewing angle. All the new units use the Sony 1/3" CCD chip for outstanding color and a clear picture with 420 TV lines at a very low lux (0.1 lux, LEDs off – 0 lux, LEDs on), with 12 LEDs to provide excellent IR illumination. Additionally, the cameras incorporate automatic backlight compensation, automatic white balance and automatic gain control.

These cameras are for use in various lighting conditions. Made of die-cast aluminum with a unique weatherproof (IP67) design with sunscreen, these cameras are designed for indoor & outdoor applications requiring IR illumination. An adjustable bracket for wall and ceiling mount allows for fast, easy installations.

The following is the current line-up of new cameras:

EV-1323C12DW – 4.3mm lens, 78° viewing angle*

EV-132C-DW2 – 2.9mm lens, 120° viewing angle*

*All viewing angles are approximate.

For more information, contact SECO-LARM today.

The EV-1323C12DWL is just one of SECO-LARM's wide selection of products for the security and electronics industries.
