SECO-LARM Introduces Three New AC Power Supplies for CCTV Cameras and Accessories

IRVINE, CALIF., June 16, 2003 - SECO-LARM introduces the latest in SECO-LARM's line of video cameras and accessories.

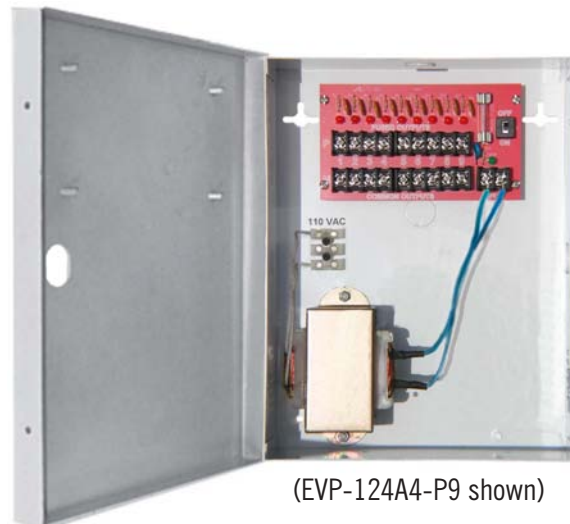

ENFORCER CCTV AC power supplies centralize the power sources for multiple AC-powered CCTV cameras and/or CCTV accessories. The power input, power transformer, and all fused power outputs are enclosed in one heavy-duty, easy-to-install enclosure. As a result, an ENFORCER CCTV power supply can replace many individual power sources.

The three new power supplies provide 24VAC outputs, each individually fused with Positive Temperature Coefficient (PTC)-type output fuses rated for 1.1 Amps @ 250VAC, and individual red LED status indicator for each output. There is a main power switch to turn on/off power to outputs. The UL-approved power transformer uses 110VAC @ 60Hz at a total power rating of 4.0 Amps for the 4- and 9-output power supplies and 8.0 Amps for the 16-output version. A spare fuse and a 6-foot power cord are included.

The case is heavy-duty steel to protect the power connections, with a removable steel cover for easy access, ventilation holes to prevent heat build-up, and a knock-out on the cover for an optional cam lock.

Model numbers for the new power supplies are as follows:

- EVP-124A4-P4 (4 outputs @ 24VAC, 4Amps)
- EVP-124A4-P9 (9 outputs @ 24VAC, 4Amps)
- EVP-124A4-P16 (16 outputs @ 24VAC, 8Amps)

(EVP-124A4-P9 shown)

These CCTV power supplies are just a few of **SECO-LARM's** wide selection of alarms and accessories for the security and electronics industries. For more information about the AC power supplies or any of **SECO-LARM's** full line of vehicle security systems and accessories, or to request our latest catalog, please contact the **SECO-LARM** Sales Department (949) 261-2999 (California), fax (949) 261-7326 or (800) 662-0800, or visit us on the Web at seco-larm.com.
