SECO-LARM's Bullet CCTV Cameras Offer Full Security and Easy Installs in Tight Places

IRVINE, CALIF., April 25, 2003 - SECO-LARM U.S.A, Inc. is now offering bullet-style CCTV cameras to securely monitor the tightest spaces under a wide range of illumination and environmental conditions. Black/white and color models can be ceiling or wall mounted at any angle to satisfy a wide range of security needs.

The EV-1323B12 is a black/white bullet camera built around a 1/3-inch CCD element which offers 420 TV lines of resolution and operates with a minimum of 0.1 lux of illumination.

The EV-1324C12 is a color bullet camera built around a 1/4-inch CCD element with a resolution of 380 TV lines. It operates with a minimum illumination of 1.0 lux.

Both cameras come with an f2.0, 3.6mm lens, and have auto electronic shutter (AES) control from 1/60-second to 1/100,000-second. The cameras also include automatic backlight compensation and automatic gain control. The signal-to-noise (S/N) ratio is greater than 48dB.

The cameras are only 3 inches long and have a diameter of only 7/8 inches (81 x 22 mm), and weigh only 2.8 oz. (80g), allowing them to be easily installed in any location. They operate with 12VDC, and consume only 125mA of current. An easy-to-read manual and complete mounting hardware ensure quick installation.

The new bullet CCTV cameras are currently shipping to authorized SECO-LARM distributors.

These bullet cameras are just a few of SECO-LARM's wide selection of security equipment and accessories for the security and electronics industries. For more information about the black/white or color bullet cameras, or on SECO-LARM's complete lines of burglar security, access control, or video security systems and accessories, or to request our latest catalog, please contact the SECO-LARM Sales Department (949) 261-2999 (California), fax (949) 261-7326 or (800) 662-0800, or visit us on the Web at www.seco-larm.com.
