SECO-LARM's New E-9622-4B25 and E-9644-6B25 Curtain/Barrier Sensors

IRVINE, CALIF., November 19, 2003 -SECO-LARM U.S.A, Inc. just introduced the E-9622-4B25 and E-9644-6B25 Curtain/Barrier Sensors with LED alignment indicator, N.O./N.C. relay output, and slim-line design, for installation in windows, doorways, skylights, fence tops, any place where space is limited.

Perfect for indoor and outdoor perimeter security, with 4 (E-9622-4B25) or 6 (E-9644-6B25) separate photoelectric beam sensors. The trigger is programmable for simultaneous breaking of any single or 2 adjacent beams. The design features rugged aluminum construction, and an anti-tamper circuit for triggering an alarm if power is cut or the end cap is removed.

No synchronizing wires are required and the LED alignment indicator makes installation easy. L-brackets and mounting hardware are included. The E-9622-4B25 is 22-1/2 inches long by 7/8 inches by 1-5/16 inches, while the E-9644-6B25 is 44-1/2 inches long by 7/8 inches by 1-5/16 inches.

The E-9622-4B25 and E-9644-6B25 are just two of SECO-LARM's wide selection of alarms and accessories for the security and electronics industries. For more information about the ENFORCER electromagnetic lock series or any of SECO-LARM's full line of residential and commercial security systems and accessories, or to request our latest catalog, please contact the SECO-LARM Sales Department (949) 261-2999 (California), fax (949) 261-7326 or (800) 662-0800, or visit us on the Web at seco-larm.com.
