SECO-LARM'S NEW Single Photobeam Detector Now Available

IRVINE, CALIF., October 9, 2004 - SECO-LARM U.S.A, Inc. is now shipping the E-961-S90W Single Photobeam Detector.

Compact in size (3-3/8 x 2-3/8 x 1-1/2)" and built for indoor and outdoor (IP66) use, with a long range of 100 feet, the E-961-S90W can be used for detecting access through gates, doorways, garages, etc.

Designed for flexible use, the E-961-S90W can mount flat on a wall or at a 90-degree angle to the wall without any brackets. Additional outstanding features include an adjustable lens angle, adjustable transmission power to suit the local environment, 10-24VAC/DC supply voltage, and a Form-C 1 Amp relay.

The E-961-S90W is just one of several beam detectors which SECO-LARM offers. Other models include the E-960 series twin photobeam detectors; the 4-beam and 6-beam curtain sensors, as well as the E-931S35RR reflective beam sensor.

The E-961-S90W is just one of SECO-LARM's wide selection of alarms and accessories for the security and electronics industries. For more information about the E-961-S90W Single Photobeam Detector or any of SECO-LARM's full line of residential and commercial security systems and accessories, or to request our latest catalog, please contact the SECO-LARM Sales Department (949) 261-2999 (California), fax (949) 261-7326 or (800) 662-0800, or visit us on the Web at seco-larm.com.
