SECO-LARM Introduces New Long-Range IR Day/Night Weatherproof Varifocal Bullet Cameras - Now Available!

Feb. 18th, 2008: SECO-LARM is now shipping the EV-133C-DWBWQ (color) IR Day/Night Weatherproof Varifocal Bullet Camera with 550 TV line resolution, 5~50 mm varifocal and a range of up to 250 feet.

Constructed of die-cast aluminum with a unique weatherproof (IP66) design, including sunscreen, the EV-133C-DWBWQ is targeted at indoor and outdoor applications requiring long-distance IR illumination. An adjustable bracket for wall and ceiling mount allows for fast, easy installations.

The EV-133C-DWBWQ uses the Sony 1/3" Super HAD CCD chip for outstanding color and a clear picture with 550 TV lines at a very low lux (0.1 lux, LEDs off -- 0 lux, LEDs on). Additionally, the camera uses a 5~50mm DC auto iris varifocal lens, with external adjustments for zoom and focus, and incorporates automatic white balance and gain control.

SECO-LARM also offers the EV-133C-DWAVQ, which is very similar to the EV-133C-DWBW, but uses 56 LEDs and a 4~9mm varifocal lens for a 100 ft. IR-illuminated range. Both cameras also feature 12VDC or 24VAC power input, with concealed cabling through the mount, and a split glass design to prevent the LED's infrared light from reflecting off the glass and back into the lens.
