SECO-LARM Introduces Three New Handheld Transmitters

SECO-LARM introduces the latest in their line-up of wireless equipment for security and access-control applications - three new handheld 315Mhz.* transmitters, with a range of up to 500 feet and over 68 billion (6.8×10^{10}) possible codes*²:

The SK-919TP1H-B features one button and one channel.

The SK-919TP2H-N features two buttons and three channels.

The SK-919TP4H-N features four buttons and 15 channels.

*Also available with SECO-LARM's patented CodeBump™ technology. Code changes every time transmitter button is pressed.

These new slimline RF transmitters are compatible with all SECO-LARM receivers (SK-910R, SK-910R2, SK-910R4) offering many possibilities for access-control as well as convenience or general security. They also have an LED transmission indicator as well as an included visor clip, belt clip, and two 3VDC lithium batteries. The dimensions are: $3\frac{1}{2}'' \times 2\frac{3}{16}'' \times \frac{1}{2}''$, (89 x 56 x 12 mm).

Available belt-clip holster: SK-9HBC. The SK-919TP1H-B, SK-919TP2H-N, and SK-919TP4H-N fit snugly inside this holster and clip to the belt. (Optional, sold separately).

*²Also available at 433.92 MHz. by arrangement with SECO-LARM.

These handheld transmitters are just a few of **SECO-LARM's** wide selection of alarms and accessories for the security and electronics industries. For more information about the transmitters or any of **SECO-LARM's** full line of vehicle security systems and accessories, or to request our latest catalog, please contact the **SECO-LARM** Sales Department (949) 261-2999 (California), fax (949) 261-7326 or (800) 662-0800, or visit us on the Web at **seco-larm.com**.
