SECO-LARM Introduces New Outdoor Keypad

IRVINE, CALIF., June 3, 2009 - SECO-LARM is now shipping the new ENFORCER® SK-1123-SQ Weather-Resistant Rugged Illuminated Stand-Alone Access Control Keypad. The keypad is constructed from heavy-duty steel and aluminum, making it suitable for both indoor and outdoor applications.

The SK-1123-SQ features 2 Form "C" relays rated 5A @ 28VDC and 1A @ 28VDC. Each relay features an independent egress input that can be programmed from 1 to 99 seconds. A built-in tamper-switch rated 3A @ 12VDC and high-security screws offer vandal-resistant protection. Up to 110 user codes can be programmed; each code can be 4 to 8 digits in length.

Other features include illuminated keys for easy nighttime use, 12-24 VDC/VAC dual voltage operation, door-forced-open and door-propped-open alarm outputs, and over 100 million user code combinations.
