SECO-LARM Introduces Video Distributors

IRVINE, CALIF., April 30, 2009 - SECO-LARM is now shipping the New ENFORCER® VA-1000 Series of Video Distributors. The VA-1000 Series includes the VA-1102B-WQ, 1-in 2-out Video Distributor and the VA-1104B-WQ, 1in 4-out Video Distributor. The VA-1000 Series are actively powered, allowing for video signal transmission distances of up to 1000' (300m) making them the ideal way to distribute video signals to multiple locations.

The VA-1102B-WQ Video Distributor features a unique power pass-through circuit. Excess current and voltage not used by the included 12VDC power adapter can be used to power other nearby 12VDC devices with low current-consumption. The VA-1104B-WQ Video Distributor is dual voltage, 12/24 VAC/VDC, for more flexible installations. The Distributors are compatible with both color and black & white signals, and are installed at the monitor or DVR side of a cable run.
