SECO-LARM Introduces the New ENFORCER VA-2000 Series of Video Amplifiers

IRVINE, CALIF., March 30, 2009 - SECO-LARM is now shipping the ENFORCER VA-2000 Series of Video Amplifiers. The VA-2000 Series is available in two models, the VA-2101B0-WQ One-Channel Video Amplifier, and the VA-2404B-WQ Four-Channel Video Amplifier. The VA-2000 Series amplifies video signals for transmission distances of up to 3300' (1000m).

The VA-2101B-WQ and VA-2404B-WQ Video Amplifiers both feature a unique power pass-through circuit. Excess current and voltage not used by the included 12VDC power adapter can be used to power other nearby 12VDC devices with low current-consumption.

Both models of video amplifier feature independent brightness and sharpness adjustments for each channel to fine-tune the signal for outstanding picture quality. The amplifiers are compatible with both color and black & white signals, and are installed at the monitor or DVR side of a cable run.
