## **SECO-LARM Introduces Two New Vandal-Resistant Push-To-Exit Plates**

IRVINE, CALIF., April 8, 2003 - SECO-LARM U.S.A, Inc. has recently introduced two new Push-To-Exit plates to add to its extensive line of access control products.

The first, the SD-7204SC-PE1 is a single-gang, stainless-steel plate with a vandal-resistant, 3/4" diameter, stainless-steel pushbutton which actuates an N.O./N.C. contact rated 5A @ 250VAC.. It features waterproof (IP65) construction with "Exit" and "Salida" silk-screened on the plate.

The second model, the SD-7104SC-PE1, is functionally identical to the SD-7204SC-PE1, but in a slimline configuration.

Several other Push-To-Exit plates are also available from SECO-LARM, including models featuring lighted buttons or "mushroom" buttons, among others. Most are available in both single-gang and slimline, with messages displayed in both English and Spanish.

The SD-7204SC-PE1 and SD-7104SC-PE1 are just two of SECO-LARM's wide selection of alarms and accessories for the security and electronics industries. For more information about these products or any of SECO-LARM's full line of residential and commercial security systems and accessories, or to request our latest catalog, please contact the SECO-LARM Sales Department (949) 261-2999 (California), fax (949) 261-7326 or (800) 662-0800, or visit us on the Web at [seco-larm.com](http://seco-larm.com).
