

GOING THE DISTANCE

Long Range
Up to 1,800ft (550m)

Wide Voltage Range
Up to 48VDC

ENFORCER 900MHz HL SERIES RF

The ENFORCER 900MHz* HL Series RF transmitters and receivers use digital modulation for improved immunity to interference, better signal penetration in environments with heavy obstructions, and significantly longer range of up to 1,800ft (550m)[†] line of sight. The ultra-low power consumption gives you up to 10-years battery life[‡] using common CR2032 coin cell batteries.

- **Digital Modulation** – Better immunity to interference
- **Consistent Transmission** – As temperature varies & voltage drops
- **Armor-Piercing Technology** – Improved penetration of obstructions
- **Receiver PCB Antenna** – Easy installation, less prone to damage
- **Receiver Has Wide Voltage Range, Low Current** – 10~24 VAC / 9~48 VDC
- **Pocket-Sized Transmitter** – IP68 Waterproof, up to 10-years battery life[‡]
- **Receiver LED Display** – Shows reception, signal strength, # of transmitters learned, etc.

* 868MHz also available and has CE

[†] Actual operating range will vary greatly depending on the installation and operating environment

[‡] Calculated based on ten 1-second button presses per day
