

App-Based Setup, Management, Monitoring, and Alerts

Ongoing management is easy with the app-based setup. The sensors and devices are plug and play. Scan a device's QR code to pair it with the app, then adjust the settings as desired. Design multi-tiered scenarios using "if-then" logic to control actions. With the app, you can receive real-time alerts when any sensor is triggered or based on your scenarios, as well as remotely monitor your system to just check in at any time and see what is happening. View audit logs for an ongoing history of each sensor.

Visual Setup

Easy Add/ Delete Device

Audit Trail

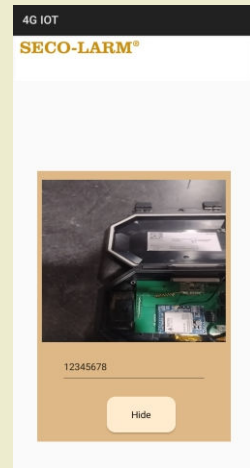

Remote Monitoring

Remote Alerts

Remote Management

No Cloud No Fees

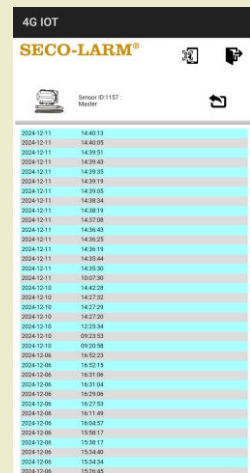

Easy Setup
Log in to the app, scan the QR code, and pair the hub effortlessly.

Device Management
Easily access and manage all devices paired to the hub.

Audit Trail
Access a full event history for each device at any time.

Personalization
Customize device names and sound settings to suit your preferences.

ENFORCER[®]

In or Out

Stay Secure, Stay Informed

Smart Perimeter Monitoring System

Easy Setup

Intuitive app-based setup with plug-and-play modules

IoT Compatible

Integrates seamlessly with 4G/5G/NB-IoT technology for internet connectivity. Supports remote management, monitoring, and control for peace of mind wherever you are

Mobile Connectivity

Receive notifications when a sensor is triggered. Real-time monitoring and control

Wide Coverage

Using long-range RF, all sensors and transmitters have a range of up to 3,300 ft (1 kilometer)*

Outdoor Weatherproof

Rugged housings and IP56 weatherproof ratings ensure durability and reliable performance for outdoor models

SECO-LARM[®]

Currently Available Models

Set up a seamless wireless perimeter monitoring system with all necessary components in one package.

From vehicle detection magnetic probes installed under driveways or roads to motion sensors, gateways, transmitters, and receivers—all seamlessly integrated into a unified system for comprehensive security.

Stay informed with a vibrating pager that delivers alerts even while you're outdoors on the premises.

Plus, advanced 4G/5G/NB-IoT technology ensures reliable internet connectivity, linking your system to our smartphone app. Monitor, manage, and receive real-time alerts remotely—anytime, anywhere.

Easy Setup

IoT Compatible

Mobile Connectivity

Wide Coverage

Outdoor Weatherproof

Magnetic Probe Sensor – Single Probe

- Wirelessly signals when vehicles are detected
- Magnetic probe below ground avoid false alarms from other sources
- Sub-1GHz RF with range up to 3,300 ft (1 kilometer)*

46' Cable

Wet/Dry Relay Output

Adjustable Sensitivity

Magnetic Probe Sensor – Twin Probe

- Wirelessly signals when vehicles are detected and identifies their direction
- Magnetic probes below ground avoid false alarms from other sources
- Twin probes enhance vehicle detection sensitivity
- Sub-1GHz RF with range up to 3,300 ft (1 kilometer)*

46' Cable

Wet/Dry Relay Output

Adjustable Sensitivity

IoT Outdoor Gateway

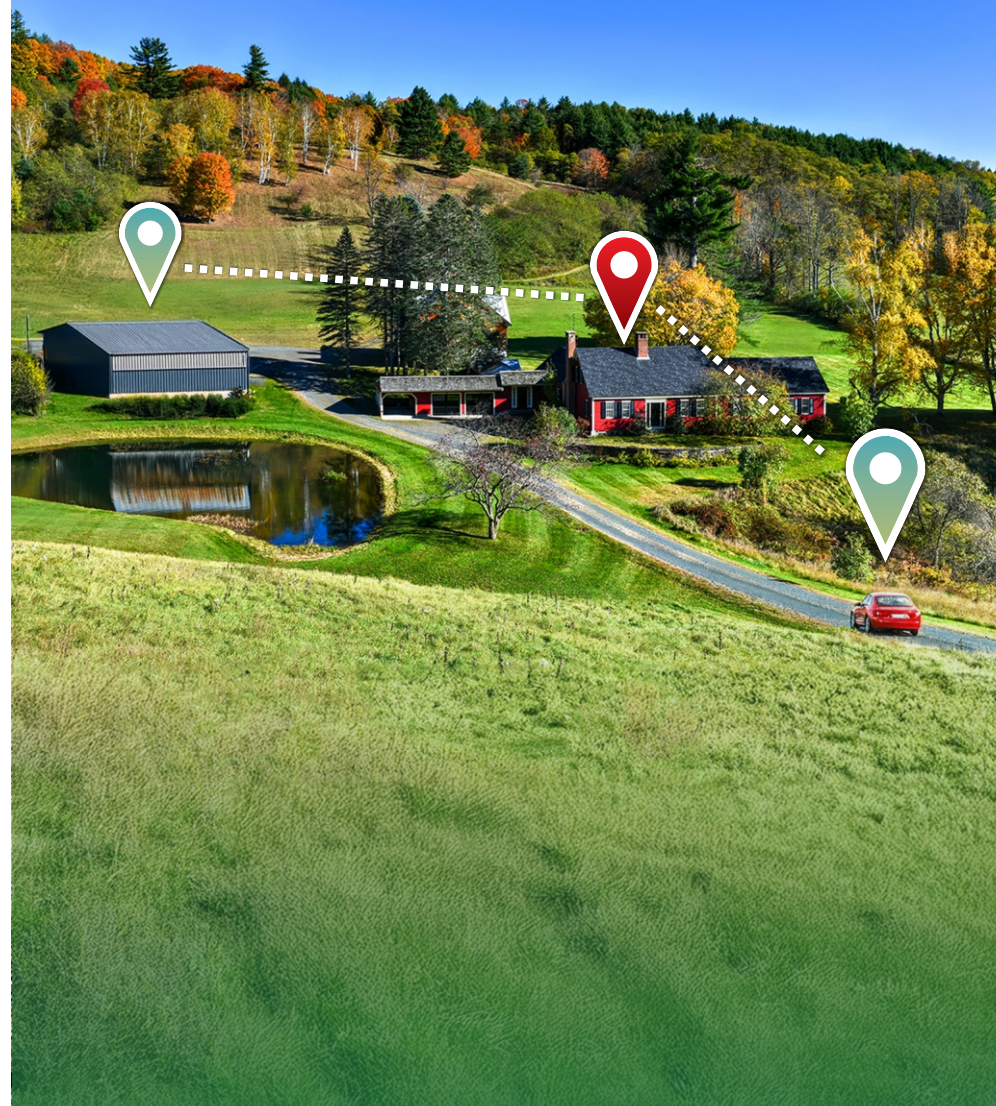

- IoT Controller system can pair with the wireless driveway alert transmitter
- Protected by weatherproof housing
- Sub-1GHz RF with range up to 3,300 ft (1 kilometer)*

App Based

Re-chargeable Battery

5G

In or Out

Stay Secure, Stay Informed

Smart Perimeter Monitoring System

Motion Sensor

- Wirelessly signals when a person or vehicle enters the sensor's area
- Designed to reduce false alarms from small objects or small animals
- Sub-1GHz RF with range up to 3,300 ft (1 kilometer)*

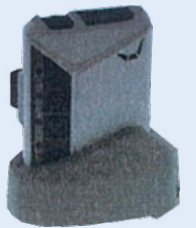

50' Sensing Range

Battery Operated

IP56

Vibrating Pager

- Compact, portable design
- Built-in belt clip
- Provides immediate alerts when on premises
- Sub-1GHz RF with range up to 3,300 ft (1 kilometer)*

LED Indicator

4 Zones

Re-chargeable Battery

Outdoor Receiver

- Receives signals from any sensor when triggered
- Protected by weatherproof housing
- Sub-1GHz RF with range up to 3,300 ft (1 kilometer)*

2 Channels

12VDC Output x 2

14 Output Options

Indoor Receiver

- Pairs with up to 6 sensors/transmitters
- Provides bright LED and loud sound when alert is received, with indication of which sensor
- Sub-1GHz RF with range up to 3,300 ft (1 kilometer)*

Wet/Dry Relay Output

Up to 90dB Sounder

32 Melodies

*Actual range may vary depending on installation and operating environment.
